

PENTA HOTEL SHENYANG

SHENGYANG, CHINA

Project Type: All Day Dining, Bar Lounge

Scope of Work: Interior design / New Construction

Project Period: 2016

Job Role: Design Director/Takashi Hasegawa

In charge concept design, Schematic Design, and FFE and artwork selections, supervise DD, CD and overall project coordination.

PENTA LOUNGE

As illustrated in the floor plan, guests' initial view upon entrance to the hotel is the distinctive reception/bar service counter offering incoming guests a full range of F&B services, depending on the time and occasion.

Additional lounge seating lines the window side of the interior, while further to the right a signature lounge, the "library," encourages guests to participate in gaming and music events..

All Day Dining & LOUNGE
Penta Hotel at Shenyang
F&B, Shenyang, China

WHAT ARE YOU
LOOKING AT?

ALL DAY DINING

The Penta Hotel's All-Day Dining area provides the young and casual traveler a wide array of dining options, enjoyed in modern, yet casual comfort. To achieve this atmosphere the interior blends monotone walls with industrial and rustic textures (brick, metal, concrete), along with a colorful and varied furniture selection, itself offset by the juxtaposed use of pastel and dark colors.

PENTA LOUNGE

A unique and well-known characteristic of the Penta Hotel in Shenyang, China is its laid back, “check in at the bar” style reception counter. Our F&B facility design plan brings this idea to life, envisioning the lounge as a single continuous space effortlessly bridging lobby and recreational functions, and inviting guests to engage in a variety of activities.
